**RE: Updated approval for the i-Score Ultra 3.0.0 SP2**

Dear Ms. Zarach,

Thank you for contacting us requesting an updated approval for the i-Score Ultra. The i-Score Ultra approval is updated to allow the display to be connected to the recently approved Safe Shoe (DE130393-XX).

The i-Score Ultra is approved for use in Washington State. The approval is contingent on the following requirements:

Requirements for House-Banked Card Game Licensees:

- The i-Score Ultra may be used independently or with approved equipment. If used with equipment, ensure only approved equipment is connected to the i-Score Ultra (ShuffleStar Shuffler and Safe Shoe Baccarat 97700-XX, SafeShoe Blackjack 997701-XX, Safe Shoe X DE118906 and Safe Shoe DE130393-XX).
- If connected to the ShuffleStar Shuffler, or Safe Shoes, ensure the keypad is only attached to the i-Score Ultra during configuration of the display.
- Ensure there is a user login and password set up on the PC table processor prior to startup to limit access to unauthorized users.

Tribal Casino Implementation:

- For Tribal Casinos, ensure internal controls and game rules are revised to include new equipment and procedures, and approved by Tribal Gaming Agency and concurred with by Washington State Gambling Commission.
- The i-Score Ultra may be used independently or with approved equipment. If used with equipment, ensure only approved equipment is connected to the i-Score Ultra (ShuffleStar Shuffler and Safe Shoe Baccarat 97700-XX, SafeShoe Blackjack 997701-XX, Safe Shoe X DE118906 and Safe Shoe DE130393-XX)

- If connected to the ShuffleStar Shuffler or approved Safe Shoes, we recommend the keypad is only attached to the i-Score Ultra during configuration of the display.
- We recommend there is a user login and password set up on the PC table processor prior to startup to limit access to unauthorized users.
